PROFESSIONAL SUMMARY

Google Data Analytics Certified entry-level Data Analyst with a Master of Computer Applications (MCA) and hands-on project experience in SQL, Python, Microsoft Excel, Power BI, and Statistics. Skilled in data cleaning, data transformation, exploratory data analysis (EDA), data visualization, and interactive dashboard development to turn raw data into actionable business insights and support data-driven decision-making. Strong analytical and problem-solving skills; seeking an entry-level Data Analyst / Junior Data Analyst / Business Analyst role.

TECHNICAL SKILLS

Data Analysis: Data Cleaning, Data Transformation, Exploratory Data Analysis (EDA), Statistical Analysis, Trend Analysis, KPI Reporting, Data-Driven Insights

Languages & Databases: SQL (MySQL), Python, Relational Databases (RDBMS), Database Management System (DBMS)

SQL Concepts: SELECT, JOINs, GROUP BY, HAVING, ORDER BY, Subqueries, Window Functions, Query Optimization

BI & Visualization: Power BI, Power Query, Interactive Dashboards, Data Visualization, Microsoft Excel (Pivot Tables, Charts, Data Cleaning)

Python Libraries & Tools: Pandas, NumPy, Matplotlib, Jupyter Notebook

AI & Emerging Tech: Artificial Intelligence (AI), Generative AI (GenAI), Prompt Engineering, Machine Learning (Fundamentals)

PROJECTS

Python EDA Project | Python, Pandas, NumPy, Matplotlib, Jupyter Notebook (Apr 2026 - Aug 2026)

- Cleaned and preprocessed a real-world dataset of 6,000+ records in Python using Pandas, handling missing values, duplicates, and outliers.
- Performed exploratory data analysis (EDA) and statistical analysis to uncover patterns, correlations, and key trends.
- Created charts and visualizations with Matplotlib and NumPy to communicate findings clearly.
- Used generative AI tools (ChatGPT, Claude, Microsoft Copilot) to speed up code debugging and analysis, validating all outputs manually.
- **Output:** Uncovered key trends and correlations in 6,000+ records and presented them in visual charts and a report.

Sales Data Analysis Dashboard | Excel, Power Query, Power BI (Jan 2026 - Mar 2026)

- Cleaned and transformed 3,000+ records of raw sales data using Microsoft Excel and Power Query to ensure data accuracy and consistency.
- Developed an interactive Power BI dashboard to monitor sales performance and key business metrics.
- Analyzed sales trends across regions, products, and time periods to identify growth opportunities.
- **Output:** Identified top-performing regions and products and spotted monthly sales dips through the dashboard.

SQL Data Analysis Project | SQL (Sep 2025 - Dec 2025)

- Analyzed 3,000+ customer and sales records using SQL to extract business insights.
- Wrote complex SQL queries using SELECT, JOIN, GROUP BY, HAVING, ORDER BY, Subqueries, and Window Functions.
- Improved data retrieval efficiency through optimized SQL queries.
- **Output:** Identified top customers and best-selling products in 3,000+ records and summarized them in reports.

EDUCATION

Master of Computer Applications (MCA) - CMR University, Bengaluru, Karnataka | CGPA: 8.0/10 | 2023 - 2025
Relevant Coursework: Data Analytics, Database Management System (DBMS), SQL & Relational Databases, Statistics & Probability, Machine Learning, Data Visualization, Dashboard Development, Data Mining, Predictive Analytics, Python Programming

Bachelor of Computer Applications (BCA) - Sai Nath University, Ranchi, Jharkhand | 2020 - 2023
Relevant Coursework: Programming Fundamentals, Data Structures, Database Management System (DBMS), SQL, Mathematics & Statistics, Computer Networks, Artificial Intelligence

CERTIFICATIONS

- **Google Data Analytics Professional Certificate** - Google (Coursera) | Completed 2026
- **IBM SkillsBuild Data Analytics Certificate** - IBM SkillsBuild | Completed 2026

CORE COMPETENCIES

Analytical Thinking | Problem Solving | Critical Thinking | Business Acumen | Attention to Detail | Data Storytelling | Stakeholder Communication | Collaboration & Teamwork | Adaptability

ACHIEVEMENTS

- Completed multiple data analysis projects using SQL, Python, Excel, and Power BI on real-world datasets.
- Earned two industry certifications in data analytics (Google and IBM) in 2026.

LANGUAGES

English - Professional Working Proficiency (Speaking, Reading, Writing) | **Hindi** - Native / Bilingual Proficiency
